

FLAT SHEETS & STRIPS

Product features

Generic properties

Material options	[-]	Galvanised steel, coated steel
Maximum tensile stretch for processing	[N/mm ²]	650
Maximum yield strength for processing	[N/mm ²]	400
Slit capabilities maximised	[number]	6
Thickness range	[mm]	0.40 - 3.0
Flat plate maximum length	[mm]	6,000
Flat plate minimum length	[mm]	800
Flat plate maximum width	[mm]	1,500
Maximum pallet weight	[kg]	3,000
Maximum pallet height	[mm]	100 + pallet

Processing options

- Slit
- Cut
- Attach protective film to one side
- Emboss
- Perforation possibilities
